OBJECTIVE

Aspiring Web Developer with expertise in React and Python. Skilled in creating responsive, user-friendly websites and web applications. Passionate about leveraging modern technologies to solve real-world problems and eager to contribute to innovative projects while advancing my technical knowledge.

EDUCATION

MASTER OF COMPUTER APPLICATIONS
SRM Institute of Science and Technology

CGPA - 8.50
(2023 - Current)

BACHELOR OF COMPUTER SCIENCE
St Alphonsa College of Arts and Science

CGPA - 7.79
(2020 - 2023)

PROJECTS

Web Chat Application

Languages used : HTML,Tailwind, Javascript, React JS

Developed a real-time web chat application using HTML, Tailwind CSS, React.js, and JavaScript, with Firebase for secure data storage, encrypted messaging, and authentication. Deployed on Cloudflare, ensuring fast and scalable performance. Implemented end-to-end message encryption to enhance data privacy
